EDUCATION

Astana IT University

Bachelor of Software Engineering

Astana, Kazakhstan

Sep. 2022 – June 2025

EXPERIENCE

Middle Frontend & Mobile Developer

Oct. 2025 – Present

BeyimTech (EdTech Startup)

Astana, Kazakhstan

- Engineered AI-powered educational ecosystems using **Next.js 14**, **React 18**, and **TypeScript**, integrating complex content editors (**Lexical**) and multi-language support (**next-intl**).
- Headed the **Mobile App recovery**, performing a full architectural refactor using **Flutter & Riverpod**; stabilized AD authentication and AI chatbot logic for a successful production launch.
- Developed high-load **Analytics Dashboards** for 20+ schools, visualizing student progress and diagnostic results using **RTK Query** for efficient data fetching.
- Designed and implemented a **Custom Telemetry System** from scratch to track user sessions and event interactions, providing the product team with real-time behavior data.
- Streamlined user onboarding by developing a new registration flow and redirection engine, significantly reducing friction between legacy and current platforms.
- Managed the full **Deployment Lifecycle** for iOS and Android (App Store/Google Play), including an automated in-app update notification system.

Frontend Developer (Contract)

Nov. 2023 – Jan. 2026

TrustMe (Blockchain SaaS)

Astana, Kazakhstan (Remote)

- Developed and optimized **Smart Contract templates** for a platform serving **1.5M+ users and 3,000+ companies**, ensuring high-fidelity document rendering and complex logic.
- Collaborated on **REST API integrations** to automate legally binding workflows, including SMS gateways and **Digital Signature (EDS)** providers.
- Implemented frontend logic for **blockchain-based authentication** and secure document verification processes.
- Streamlined the digitization of contractual relationships by creating reusable UI components and flexible layout structures for the TrustContract ecosystem.

Frontend Developer (Internship)

Feb. 2024 – Apr. 2024

QB Solutions

Astana, Kazakhstan (Remote)

- Engineered the entire frontend for the **"Open Government"** web platform from scratch using **Next.js** and **React**, ensuring a full production-ready deployment.
- Designed the **UI/UX architecture** from the ground up, creating intuitive layouts for news feeds, project catalogs, and detailed content pages.
- Implemented **Full Internationalization (i18n)** support, enabling seamless multi-language switching across the entire platform.
- Developed **Adaptive & Responsive** layouts for all device types, maintaining high performance and visual consistency using modern CSS techniques.
- Applied **Agile methodologies** during the development lifecycle, utilizing **GitHub** for version control and project milestone tracking.

Mobile Developer (Internship)

Sep. 2023 – Nov. 2023

Stolovka (FoodTech Startup)

Remote

- Developed a nearly full-featured mobile application using **Flutter & Dart**, implementing core modules: **Product Catalog**, **Shopping Cart**, **User Profile**, and **Authentication** (Login/Registration).
- Built high-fidelity mobile interfaces based on **Figma designs**, ensuring pixel-perfect implementation and smooth user experience across iOS and Android.
- Implemented an **In-app Update notification system** using **Firebase Remote Config** to manage versioning and force mandatory updates for end-users.
- Streamlined the internal testing process by managing app distribution through **Firebase App Distribution**, enabling rapid feedback cycles within the development team.
- Created complex UI flows and navigation structures, focusing on clean code architecture and preparation for future backend API integration.

PROJECTS

Finance Management Application | *React Native, Expo, Python, FastAPI, OpenAI API* Dec. 2024 – June 2025

- Engineered a Full-stack mobile application for intelligent finance tracking using **React Native (Expo)** and a **FastAPI** backend.
- Integrated **OpenAI API** to develop a personalized AI assistant that analyzes user spending patterns and provides data-driven financial advice.
- Architected a scalable database schema in **PostgreSQL** to securely store user transactions, budget limits, and analytical categories.
- Developed interactive data visualizations using advanced **React Native charting libraries** to provide users with real-time budget insights.
- Implemented a robust **RESTful API** with full **Swagger/OpenAPI** documentation, ensuring seamless communication between the mobile client and the Python backend.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Dart, Python, HTML5, CSS3/SCSS, SQL

Frontend: React 18, Next.js 14, Vue.js, Tailwind CSS, shadcn/ui, next-intl

Mobile: Flutter, React Native, Expo, Riverpod, Go Router, Firebase Services, Dio

State Management: Redux Toolkit, RTK Query, Zustand, React Context API

Backend & DevOps: FastAPI, PostgreSQL, Docker, AWS, GitHub Actions (CI/CD), REST APIs

Testing & Tools: Jest, Playwright, Git, ClickUp (Agile/Scrum), Figma (UI/UX)

LANGUAGES

English: Upper-Intermediate (B2+) — Technical documentation, daily communication

Kazakh: Native

Russian: Native

CERTIFICATIONS

IT Essentials | *Cisco Networking Academy*

Cloud Computing Concepts | *Amazon Web Services (AWS)*
